Prices Fluctuate Within Wide Holders Take Profits After Steady Gains Recently in Futures Market.

CHICAGO, Aug. 22.—Wheat prices fluc-tuated rapidly within a wide range to-The weight of increasing realizing sales after an advance of about 309 day and while lower early, following a points in less than ten days made fivef higher start, turned strong toward the felt in yesterday's cotton market, which close, December advancing more than turned somewhat unsettled in tone and 3 cents from the low. At the finish dropped 37 to 43 points, closing within a wheat ranged from 1% to 1%c, net point or so of its low. igher, with September \$1.02% to \$1.02% There was sufficient buying power at

wheat ranged from 14 to 1%c. net higher, with September \$1.02% to \$1.02% and December \$1.02% to \$1.03%. Corn was up %c. to 1c. Oats advanced ½ to %c. and provisions were irregular.

Yesterday's break in Liverpool carried wheat there below a parity with Chicago and readjustment to-day combined with covering short covering and Continental buying made the close there higher.

The market here opened firmer in sympathy with Liverpool, but after shorts had covered it eased oft quickly under a little local and commission house pressure. The undertone, however, was not weak and it took but little buying to make a strong rally. There was little in the news to account for the uptura, but it was noticable that sentiment was much less bearish even when values were under the close of the previous day than has been the case for cash wheat in the West, but the demand at the seaboard was reported as slow.

There was a broad market in corn after a small decline early General short covering was on and with an oversold condition and stop loss orders to sell and profit taking by recent buyers checked the buige. Damage reports were received from the southwest where it remains hot and dry.

Oats followed corn and averaged higher.

Provisions were weak, there, being scattered liquidation on a September lard which was changed ever to October at about 10 points difference.

CHICAGO PRICES.

Municipal Securities THIS NEW EDITION, just off the press, should prove the most I notable publication of its class ever issued. It completely covers the public debts of, and furnishes full financial, economic and political information on every country in the civilized world. It contains up-to-date, colored maps of every important country in the world, besides maps of

each of the 48 States of the American Union. In all, no less than 622

Nations and their Civil divisions are completely covered.

Government and

Investment Ratings are furnished for every known bond issue of every Nation and every sub-division of each foreign country, as well as of the United States. Over 10,100 foreign External and Internal Bond Issues are described, classified and rated. In the American section, over 40,000 bond issues are classified and rated.

Important New Features in addition to the maps, include a five-year price range of all important foreign bond issues quoted in New York, London and Switzerland, and a ten-year range of foreign exchange showing the high and low quotations of all foreign currencies from 1913 to date. Full and exhaustive analyses of the United States government finances, including a complete and accurate description of the Federal Farm Loan System, are also furnished.

Accuracy as well as Completeness has been our watchword in the preparation of this volume. Original sources have been strictly adhered to, and all foreign data has been obtained directly from the countries and their officials and through our large corps of special investigators and correspondents, located in all parts of the world. Thus, the book will be found more uniformly complete and up-to-date on foreign financial statistics than any of the English, French, German or other foreign financial reference books.

This Standard Rating Book on Governmental and municipal securities (commonly known as the "Blue Book") is one of the series of four Rating Books which we publish annually, the other volumes covering Industrials, Public Utilities and Steam Railroads. Price \$20 per volume, or \$80 for the set. All of the 1922 editions are now ready for delivery except that on Steam Railroads (now in press). Orders for any or all volumes should be booked at once to insure prompt delivery.

7½% with Safety Are you among those investors who are seeking a way to escape the consequences of the great decline which has occurred in interest rates? Miller First Mortgage Bonds, secured by income-earning property in Southern cities, offer you the opportunity. These bonds pay 7% or 7½% interest, and are surrounded by safeguards which have established an unbroken safety record for Miller securities.

You Can Still Get 7% or

In addition to the advantage of the liberal rate always offered by the South, Miller Bonds have demonstrated their stability. During the period of money stringency, the rate on these bonds did not advance as violently as on most other securities, and today it has not fallen as far as the rate on most other securities has

If you would like to continue to receive a liberal rate on your money, investigate Miller Bonds. Each issue is secured by a First Mortgage on an income-earning building, by a First Claim on its earnings, and by Monthly Pay-ments in advance which the borrower makes to meet principal and interest.
